Citizen Concerns:

Resident Ron Young shared specific concerns pertaining to the South Suburban Joint Action Water Agency, citing a couple of documents (06/29/11 & 07/01/11) that were obtained under the Freedom of Information Act. Mr. Young indicated that elected officials have the right to get more information that what he and other private citizens can and encouraged us to examine SSJAWA very closely.

Josh Ellis of the Metropolitan Planning Council was invited to share an overview of Lake Michigan Water Usage, insight into other Joint Action Water Agencies, the limitations that Illinois State Law places

on Chicago as to pricing of water. Without taking a position, Mr. Ellis did raise the point that the SSJAWA would have many middlemen involved...where we are a direct water customer of Chicago. Also, the SSJAWA water sourcing point being in Indiana would place Indiana Water Laws over the operation, in addition to Illinois State Laws.

Other JAWAs were established to go from well water to Lake Michigan Water and to assure communities a more reliable, better quality water source, not as a means to respond to Chicago price increases.

Meadows Golf Course:

Meadows Golf Course Supervisor Ms. Betty Harmeyer shared with the committee several ideas for modifications to the clubhouse that will make the interior more adaptable to attract additional rentals. Some of the remodeling would be to remove portions of the interior walls, add folding doors to create a larger room for rental. The deck area on the west could be expanded, a roof and enclosed walls added to make the deck area a three-season rental opportunity.

Several golf course improvements and equipment is needed. Landscaping improvements, golf cart pathway widening and asphaltting will be undertaken. Several credits from the golf course maintenance firm will be applied toward the landscaping changes and the course employees have already prepared the cart paths making them eight feet wide from the previous six feet.

The committee consensus was positive toward the modifications that Ms. Harmeyer proposed and understand that re-investment in the golf course paths and upgrading several pieces of equipment is necessary. These items will be presented to the Finance Committee. (Also, Josh Ellis of the Metropolitan Planning Council suggested that the city pursue grant money before repaving and striping the parking lot. Pavers would be an option and let surface waters drain into the ground, such has been done at the White Sox parking lots and other locations.)

Public Works:

Frank Berrini shared progress being made throughout the city. Tree trimming, painting, cement sidewalks, and pothole patching continue. An area north of the Meadows Club House was blacktop by the city to assist in creating a new parking pattern and additional parking spots.

Water Department:

Robert Houlf reported that a new firm (J.E.M. Traffic Control) to provide the lighted barricades to replace the previous firm that closed. Also, the fire hydrant flow testing that is needed every five years was priced around and the current firm is cost-competitive. Our own employment will be utilized to establish an ongoing maintenance program.

G-Pass Technologies Water Meter Test Project:

After several questions, concerns and discussion, the committee approved three-zero to go forward with a 50 Location Water Meter Test Project at no cost to the city to study the feasibility of connecting to their technology as a means to one day go to a paperless water bill payment approach.

Ward Requests/Concerns/Appreciation:

Alderman Vieyra expressed frustration with the street signs around Lincoln School. City Clerk Randy Heuser will be asked to locate ordinances, so that the committee may see what has passed and try to make the restrictions more uniform/reasonable.

Alderman Pittman provide a complete request form for Handicap Parking for the resident of 12240 Ann Street. The form will be provided to City Clerk Heuser, to Public Works, and Judiciary will be asked to act upon it. Motion was made, seconded, and approved by a three-zero vote.

Alderman Frausto presented the committee with a draft of an ordinance that would create a “Honorary Street Sign Naming”. The item was discussed, several concerns were raised and it will be placed on the next agenda for action. It was suggested to Alderman Frausto that he may also want to provide the draft copy of the ordinance to the Judiciary Committee.

Alderman Johanson mentioned that per Alderman Stone’s request, M&M Pallets was visited by the building inspector and high stacks of pallets were lowered. A concern is that automobile repairs may be going on there and this will need to be looked into.

Public Works has gained permission from MWRD to trim some shrubs on Canal Street that were brought to the committee’s attention through a petition from the Street that had been requested by Alderman Vieyra & resident petition. The MWRD will not allow the area to be totally cleared, as it is wetlands.

Unfinished Business & Updates:

The committee unanimously approved to send on to the Finance Committee the need for a Fairway Mower, Maintenance Carts, Grinder for Blade Sharpening, and a Beverage Cart.

New Business:

An apartment owner on Irving Avenue has requested a special meeting with the committee to appeal a sewer repair notice that was issued to him in July. The dates of October 22nd & November 12th at 6:00PM will be offered.

Next Meeting – Monday, October 14, 2013, 6:30 pm – East Annex.

Judiciary Committee – Ald. Ostling, Chairman

No report.

Next Meeting – Monday, October 7, 2013, 6:00 pm – East Annex

The Mayor stated he will look into it with the City Attorney and will address it for the next council meeting.
