KEEP IT CLEAN...KEEP IT GREEN!

OUR FLEET AND WAREHOUSE IN PLAINFIELD, IL

Be Green to keep our Earth Blue.

KEEP IT CLEAN...KEEP IT GREEN!

Vintage Tech Recyclers Inc. is located in the Chicago-land area, and we are a responsible electronic recycling company. Our main focus is to safely and securely recycle your outdated electronics at the lowest possible cost, keeping hazardous material out of our landfills, and protecting your sensitive data. We have been able to keep our costs at little or nothing to you thanks to the State of Illinois grants we

have received for the last 2 years.

We have partnered with Will, Grundy, and Kendall Counties, The Village of Oswego and we have several other recycling programs as well. (see photos next page)

KEEP IT CLEAN...KEEP IT GREEN!

Our Process

Vintage Tech has a simple process to recycling computer equipment. We will help your organization evaluate your recycling needs and offer you the services that will help you achieve your recycling goals.

Our simple process is as follows:

Be Green to keep our Earth Blue.

KEEP IT CLEAN... KEEP IT GREEN!

Pickup- we will bring all supplies to your location and pack everything onto our trucks for you, we just ask that you have everything near the exit for us. All equipment will be unloaded, tested, and audited at our warehouse in Plainfield, IL.

Be Green to keep our Earth Blue.

KEEP IT CLEAN...KEEP IT GREEN!

Testing- Monitors will be tested for clarity and color quality, year manufactured, and damaged screens.

All monitors that fail our quality standards will be responsibly recycled according to EPA, State, and Federal, guidelines.

Be Green to keep our Earth Blue.

Keep IT CLEAN... KEEP IT GREEN!

Testing/Refurbishing - We refurbish every computer possible for re-use, and clean, wipe, and upgrade for resell. Any computers that cannot be re-furbished are dismantled and separated for parts, and reused or recycled back to raw materials.

Be Green to keep our Earth Blue.

KEEP IT CLEAN...KEEP IT GREEN!

Data Security– Are You Compliant with New Information Privacy Acts?

New regulations require you to have a customer privacy policy in place. Your policy must include secure electronic data retirement in order to be compliant with recent acts, including:

- Health Insurance Portability and Accountability Act (HIPAA)
- Gramm-Leach-Bliley Act (GLB Act)
- Sarbanes-Oxley Act
- The Patriot Act
- Identity Theft and Assumption Deterrence Act

Our software we use to wipe hard drives is compliant for all of these acts!

Be Green to keep our Earth Blue.

KEEP IT CLEAN...KEEP IT GREEN!

Shredded and recycled- parts and components that cannot be re-used, are recycled to the end-of-life for precious metals and plastics, using a Chicago company that is ISO 9001 registered!

Be Green to keep our Earth Blue.

KEEP IT CLEAN...KEEP IT GREEN!

Vintage Tech Recyclers Inc.
This certificate acknowledges that:
ABC COMPANY
123 Brown St
Chicago, IL 60563

Has recycled electronic equipment with: Vintage Tech Recyclers

This certificate of recycling certifies that the electronic equipment sent from you or your company for recycling has been received by Vintage Tech, all data and software has been removed, and then redistributed, donated, dismantled, or recycled complying with all Federal, State, and local environmental laws.
